

**FY 2022
Funding Guidance and Funding Levels**

The funding authorized for foreign labor certification state grants in the *Consolidated Appropriation Act, 2022* was allocated to the SWAs as described below:

1. Base Allocation (\$13,955,140): With limited exceptions a base allocation was allocated to each SWA commensurate with its **base allocation for the previous year and the level of obligations under its active foreign labor certification grants**. The exceptions are comprised of SWAs meeting each of the following criteria:
 - a. the SWA processed an annual average of less than five total clearance orders attached to H-2A applications during the three most recently completed fiscal years (FY 2019-2021),
 - b. the SWA processed an annual average of less than five total H-2B job orders during the three most recently completed fiscal years (FY 2019- 2021); and
 - c. an annual average of less than five total housing units were identified on clearance orders attached to H-2A applications processed by the SWA during FY 2020 and FY 2021; and
 - d. in circumstances where a SWA's actual workload met all three of these aforementioned factors, the SWA was allocated \$5,000 to support the costs associated with processing this minimal level of foreign labor certification workload. The SWAs meeting these criteria were the District of Columbia, Guam, and the Virgin Islands.
2. Supplemental Allocation (\$7,326,860): In addition to its base allocation, each SWA, except those meeting the criteria described above, was allocated a supplemental allocation. Each SWA's supplemental allocation was determined in the following manner:
 - a. One-third of the available funding was based on each SWA's proportion of the estimated total national housing inspection workload. This was defined as the total number of housing units identified on clearance orders attached to H-2A applications processed during FY 2020 and FY 2021 and located in the jurisdiction of the SWA divided by the total number of housing units identified on clearance orders attached to H-2A applications processed during FY 2020 and FY 2021 by all SWAs.
 - b. Two-thirds of the available funding was based on each SWA's share of the total national workload associated with reviewing and posting clearance orders attached to H-2A and H-2B applications during the three most recent fiscal years (FY 2019 – 2021).

- Seventy percent of this two-thirds amount was allocated based on each SWA's share of the total clearance orders attached to H-2A applications processed during the three most recently completed fiscal years (FY 2019 – 2021). For example, if SWA 1 processed five percent of the total national clearance orders attached to H-2A applications processed during the three most recent fiscal years, then SWA 1 would receive five percent of the funding allocated on the basis of clearance orders attached to H-2A applications. Because SWA reviews of clearance orders attached to H-2A applications have significantly more complex regulatory requirements than SWA reviews of H-2B job orders, a higher percentage of the available resources were allocated on the basis of clearance orders attached to H-2A applications rather than on H-2B job orders.
 - The remaining thirty percent of the two-thirds amount was allocated based on each SWA's share of the total H-2B job orders processed during the three most recently completed fiscal years (FY 2019 – 2021). For example, if SWA 1 processed five percent of the total H-2B job orders processed during the three most recent fiscal years, then SWA 1 would receive five percent of the funding allocated on the basis of H-2B job orders.
3. Total Grant Allocation: The combined total of each SWA's base allocation and supplemental allocation comprises the SWA's total FY 2022 grant award.
4. Data Sources:
- The data sources used to support the allocation of supplemental funding for SWAs are available in the OFLC disclosure data published at www.dol.gov/agencies/eta/foreign-labor/performance.
 - Housing unit data was derived from the Form ETA-790A, Addendum B. Data from the three most recently completed fiscal years was used for the workload factors associated with job orders in order to more accurately reflect long-term trends.

FY 2022 Funding Level: \$21,282,000

The funding amount below **must be indicated on the SF-424 and SF-424A for FY 2022*

	Base Allocation:	Supplemental Allocation:	Total FY 2022 Grant:
Total	\$13,955,140	\$7,326,860	\$21,282,000
Alabama	\$122,000	\$55,580	\$177,580
