FROM: CHERYL ATKINSON /s/
Administrator
Office of Workforce Security

SUBJECT: Selected Unemployment Insurance (UI) Tax Data from Form ETA 581, Contribution Operations for the Calendar Year (CY) Ending December 31, 2006

1. **Purpose.** To provide a summary of selected ETA 581 data with associated charts and tables for CY 2006.
2. **References.** ET Handbook No. 401, 4th Edition, May 9, 2007, Section II, Chapter 2; ET Handbook No. 407, 4th Edition, November 20, 2003.
3. **Background.** CY 2006, UI tax performance data and computed measures (CMs) presented in this summary report are derived primarily from the quarterly ETA 581 Contribution Operations report. Although this is a summary of CY 2006 activity, many of the charts in this analysis show quarterly data, due to the cyclical nature of tax functions. State and Regional CM percentages for each of the 19 measurements, along with the raw data used for computation of the percentages, are displayed on the tables. The 13 CM tables may be viewed on the Office of Workforce Security (OWS) website at:
http://www.workforcesecurity.doleta.gov/unemploy/nat_sum_tables_2006.asp.

The information displayed on the referenced tables is based on data in the database at the time the tables were created. Due to occasional ETA 581 report adjustments made by states, the attached charts and tables may differ from more current information. Current CM information is available on the web page, although displayed in less detail at: <http://www.workforcesecurity.doleta.gov/TPSWP-CM-CMC/web.jsp>.
4. **Action.** State Administrators are requested to distribute this advisory to appropriate tax program staff.
5. **Inquiries.** Inquiries should be directed to the appropriate regional office (RO).
6. **Attachments.**
