

WHAT'S MY NEXT MOVE?

A guide to exploring careers using online documents from the U.S. Department of Labor

What are my career interests?

Which careers do I want to explore?

What are my career goals?

Who's doing what I want to do?

What are my plans to achieve my career goals?

How do I start my career?

How do I put my plan into action?

What's My Next Move? is a career planning document designed to assist high school students in managing their education and career plans. This document guides students along the career planning process from self-assessment, career/occupation exploration, to job searching and interviewing. The major benefit of this document is that it will allow students to engage career counselors, teachers, parents and others as they identify and gather information from multiple sources into one comprehensive plan.

**Interests
+ Job Zones
Careers**

To focus your search, think about the following question:

How much education, training, and experience do I need to do the job?

Each O*NET career is in one of five **Job Zones**, which group careers that need the same level of **experience, education, and training**.

Different careers need different amounts of preparation. You will be asked to pick a Job Zone. Using your Job Zone and your interests, the Interest Profiler will help you identify and explore careers that might be right for you.

WHAT'S MY NEXT MOVE?

STEP 2: Which careers do I want to explore?

Some careers take longer to prepare for than others. On **MyNextMove** website, each O*NET career is in one of five Job Zones.

Careers in Job Zones 1 and 2 typically require a high school education. You may also want to consider careers in Job Zone 3 and above that require training after high school.

Have you thought about how much education or training you want to take to prepare for your career? Consider all of the options:

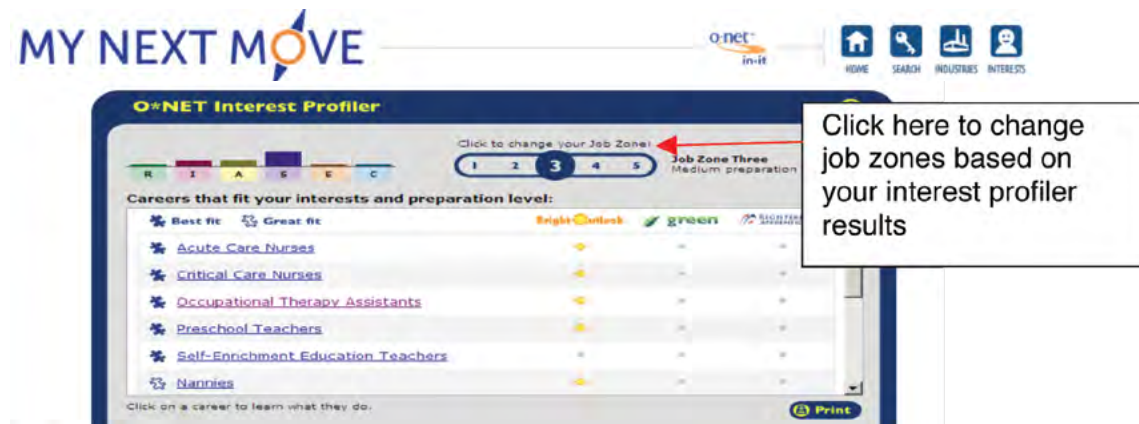

- Registered apprenticeship
- Community college
- Four-year college
- Technical training, Job Corps.

You can print out a list that explains the five Job Zones here:

<http://www.mynextmove.org/explore/jobzones>.

Remember: The more education and training you have (for example: industry certifications, associate's degree) the more money you are likely to earn over your lifetime.

Here's an example based on Interest Profiler results in Step 1 for Job Zone 3 (medium preparation [e.g. associate's degree])

Of the occupations matching your interests, which ones do you want to learn more about? Here are some examples:

Job Zone	Occupation	Occupation
3	Occupational Therapy Assistants	Critical Care Nurses
4	Elementary School Teacher	Rehabilitation Counselor

Action Item(s): Before moving on to Step 3, do the following:

(✓) Complete?

- Write down the occupations that match your interests in the Career Planning Document under step 2.
- For each of the career choices that you want to explore further, print out the one-page occupation profile from **MyNextMove** and attach it to your Career Planning Document.

STEP 7: How do I put my plan into action?

Do you want or need personal assistance in planning and achieving your career goals? Use America's Service Locator to find an American Job Center Network member closest to you: www.servicelocator.org.

Share the information you've gathered using **What's My Next Move?** and the **Career Planning Document** (page 10) with the counselors you meet with at the American Job Center and ask for their advice and guidance in achieving the goals that you've identified.

You may also consider sharing your **Career Planning Document** with family members, school counselors, librarians, community organizations where you may volunteer, people you meet and network with (for example: your informational interviewee – see Step 4).

The **Career Planning Document** is a “living” document. As you gain information, skills and experience, continue to add and change information in this document. Over time, your career goals and plans will change. You also may want to pursue more education and training to reach your career goals. The **Career Planning Document** is great for organizing and capturing new goals and new information.

Good luck on your path to career success!
