

<b>EMPLOYMENT AND TRAINING ADMINISTRATION</b> <b>ADVISORY SYSTEM</b> <b>U.S. DEPARTMENT OF LABOR</b> <b>Washington, D.C. 20210</b>	<b>CLASSIFICATION</b> Unemployment Insurance
	<b>CORRESPONDENCE SYMBOL</b> OUI/DPM
	<b>DATE</b> June 29, 2012

**ADVISORY:** UNEMPLOYMENT INSURANCE PROGRAM LETTER NO. 24-12

**TO:** STATE WORKFORCE AGENCIES

**FROM:** JANE OATES /s/  
Assistant Secretary

**SUBJECT:** Additional Planning Guidance for the Fiscal Year (FY) 2013 Unemployment Insurance (UI) State Quality Service Plan (SQSP)

**1. Purpose.** To initiate the process, provide supplemental instructions, and define additional requirements for the FY 2013 SQSP.

**2. References.**

<b>RESCISSIONS</b> None	<b>EXPIRATION DATE</b> September 30, 2013
----------------------------	--

- ET Handbook No. 336, 18<sup>th</sup> Edition, Change 2 (December 2009) (<http://wdr.doleta.gov/directives/attach/UIPL/UIPL3-10.pdf>).

**3. Background.** The SQSP represents an approach to the UI performance management and planning process that allows for an exchange of information between Federal and state partners to enhance the UI program’s ability to reflect their joint commitment to performance excellence and client-centered services. The Social Security Act authorizes the Secretary of Labor to provide funds to administer the UI program and governs the expenditure of those funds. Therefore, the SQSP operationally serves as the grant document through which states receive Federal UI Administrative Funding.

As part of UI Performs, the comprehensive performance management system for the UI program, the SQSP is the principal vehicle that state UI programs use to plan, record, and manage improvement efforts as they strive for excellence in service. ET Handbook No. 336, 18<sup>th</sup> Edition, contains general instructions for the SQSP. That Handbook is designed as a permanent instruction for the annual planning and budget process and provides states with planning guidelines and instructions for reporting UI financial and staff year information. Annually, we issue additional planning guidance that supplements the Handbook and provides direction and instructions specific to the upcoming FY.

States must participate in the annual UI Performs SQSP process whether or not they opt to include the UI program as part of their Strategic Unified State Plan submitted under Section 501 of the Workforce Investment Act (WIA) of 1998.

**4. National Direction.** The SQSP process addresses current state service delivery performance. It also aligns state procedures with national policies and priorities for accurately and timely paying benefits, and providing reemployment assistance.

Each year, after consulting with our stakeholders, we establish national priorities for the UI program. For FY 2013, our top priority continues to be the prevention, detection, and recovery of improper payments. Additionally, we will continue to work to improve program performance nationally; to emphasize better service delivery for the UI program by improving reemployment services to UI recipients; and to improve the process for detecting misclassified workers.

We provide the following national priorities for FY 2013 to help states develop their SQSP, including the establishment of state-level priorities for the UI program. Each state is expected to submit an updated UI Program Integrity Action Plan to address its UI improper payments. (See Attachment C)

*Improved Prevention, Detection, and Recovery of UI Improper Payments*

President Barack Obama issued Executive Order 13520 on November 20, 2009, which articulates the Administration’s focus on reducing improper payments government-wide. The UI program is one of the top four Federal programs with a high dollar amount of improper payments and is, therefore, considered a “high priority” program. In addition, the UI program as a whole is considered out of compliance with the Improper Payment Elimination and Recovery Act

(IPERA) of 2010 because the improper payment rate exceeds 10 percent. This is a critical issue given the impact that improper payments have on state unemployment funds. Integrity efforts not only help preserve these unemployment funds and control UI tax rates, but they also maintain the public trust that the program is protected and operated as intended. As such, there will be an intensified effort for the Employment and Training Administration (ETA) and the states to work collaboratively to aggressively reduce improper payments.

To update their Program Integrity Action Plan, states must analyze their Benefit Accuracy Measurement (BAM) data to identify the top root causes for improper payments and develop strategies that will be effective in reducing or recovering improper payments. We will provide significant technical assistance to states to support their integrity activities. In addition, we will work with states to expand participation in the Treasury Offset Program for the recovery of overpayments, to implement the State Information Data Exchange System for obtaining timely and complete separation information, and to more effectively use the National Directory of New Hires (NDNH) and other overpayment prevention tools for Benefit Payment Control (BPC). The format for the Program Integrity Action Plan and instructions are included in Attachment C.

### Improving Program Performance Nationally

ETA has embarked on a multi-pronged strategy designed to significantly bolster program accountability and facilitate performance improvement nationally. Strategies to meet this objective include:

- Providing high-emphasis technical assistance to support performance improvements for “At-Risk” states (states with sustained and extremely poor performance);
- Continuing to use the UI performance management system, UI Performs, which includes core measures and Secretary’s Standards to monitor state performance; and
- Reviewing and improving the annual SQSP process, including helping states to develop more effective corrective action plans (CAPs) that truly help states meet or exceed performance targets.

As states develop their SQSPs, they should consider including strategies that will significantly enhance program accountability and performance improvement and seek technical assistance through ETA’s regional offices (ROs).

### Reemployment of UI Claimants

ETA will focus significant technical assistance resources to support states’ service delivery to UI claimants in FY 2013. The goal is to ensure that UI claimants have access to the full continuum of workforce services through One-Stop Career Centers, both virtual and in-person, and through Rapid Response activities. We will work more intensively with states that have Reemployment and Eligibility Assessment grants to identify and share “best practices” and develop a more uniform national assessment program. We are also collaborating with state and local delivery

workforce system partners to improve the integration of UI and workforce programs with the goal of improving employment outcomes for UI claimants.

As states develop their SQSPs, they should consider including innovative and robust reemployment strategies that are jointly developed in collaboration with the workforce system partners, including the WIA Adult and Dislocated Worker programs and Wagner-Peyser funded employment services program. We recommend that UI program staff collaborate with these partners to ensure the strategies reflect the agreement(s) made and are documented in each of the partners' strategic plans.

### Addressing Worker Misclassification

The President's FY 2013 budget request includes a multi-agency initiative to dramatically strengthen and coordinate Federal and state efforts to address employer misclassification of workers. The goal is to: improve Federal and state agency capacity to identify potential violators through improved information sharing and targeted audits in high-risk industry sectors; provide outreach to employers to educate them about worker classification and, therefore, prevent misclassification; increase statutory enforcement; and enable the collection of payroll taxes previously lost due to misclassification. As this Federal collaboration unfolds, we will make states aware of new opportunities and strategies that may be available to address this problem.

The President's budget request also includes \$10 million for an initiative to increase state capacity to address misclassification within the UI program. This initiative would provide for competitive grants for states to increase their data sharing activities with the Internal Revenue Service and other Federal and state agencies to: implement targeted audit strategies; establish a cross-state agency task force to target egregious employer schemes to avoid taxation through misclassification; and develop education and outreach programs. ETA will provide states with additional guidance for this initiative when the FY 2013 budget is enacted.

States may deploy a wide array of other strategies in addition to these Federal strategies. We encourage states to move forward to develop and implement state-driven strategies to address misclassification of workers and to include those strategies in the state's SQSP. We will identify state "best practices" in this area and share them broadly.

**5. Strategic Goals and Outcome Measures.** The five-year Department Strategic Plan forms the basis for the Federal emphasis for FY 2013. Required by Congress under the Government Performance and Results Act of 1993 (GPRA), the Strategic Plan is an integral part of the budget process and requires a commitment from all Department programs to attain expressed goals and outcomes. Achieving these outcomes requires the combined efforts of the Federal and state partners.

The UI program and outcome goals, shown below, support the Department of Labor's (Department's) strategic vision of "***Good Jobs for Everyone***".

This year we are focusing significant technical assistance resources to support states' service delivery to UI claimants. The focus is to ensure that UI claimants have access to the full continuum of services beginning with their claim for UI benefits by providing access to the full range of workforce services delivered through One-Stop Career Centers and Rapid Response activities. States are expected to describe in the SQSP Narrative the steps they will take to better connect the UI claimant with the workforce system.

### FY 2013 GPRA Goals and Targets

In recognition of ETA priorities, attention is focused on the following GPRA goals for FY 2013, with targets that the system as a whole is expected to meet. States should continue to strive to reach or exceed these GPRA goals and targets, which are published also in the Department's FY 2011 Annual Performance Report (<http://www.dol.gov/dol/budget/2013/PDF/CBJ-2013-V1-01.pdf>).

#### **Strategic Goal 1: Prepare workers for good jobs and ensure fair compensation.**

##### **Outcome Goal 1.3.: Help workers who are in low-wage jobs or out of the labor market find a path into middle-class jobs.**

- *Facilitate the Reemployment of Claimant*
  - **Target:** 58.5 percent of UI claimants will be reemployed by the end of the first quarter after the quarter in which they received their first payment.

#### **Strategic Goal 4: Secure health benefits and, for those working, provide income security.**

##### **Outcome Goal 4.2.: Ensure income support when work is impossible or unavailable.**

- *Make Timely Benefit Payments*
  - **Target:** 87.0 percent of intrastate first payments for full weeks of unemployment will be made within 14/21 days from the week ending date of the first compensable week.
- *Detect Benefit Overpayments*
  - **Target:** Overpayments established will be at least 51.8 percent of the estimated detectable, recoverable overpayments.
- *Establish Tax Accounts Promptly*
  - **Target:** 87.5 percent of status determinations for new employers will be made within 90 days of the end of the first quarter in which liability occurred.

**6. SQSP Planning Requirements and Guidance.** ET Handbook No. 336, 18<sup>th</sup> Edition, Change 2, and this UIPL provide guidelines for the completion and submission of the SQSP and should be used when preparing the FY 2013 State Plans.

The Department's strategic approach to UI Performs is to focus efforts on improving the performance of states where performance is below minimum criteria, while promoting overall excellence. CAPs are expected whenever a state's performance does not meet established

criteria for the SQSP measurement period (or performance year) and remains uncorrected before the preparation of the SQSP. The measurement period for the FY 2013 SQSP is April 1, 2011 – March 31, 2012, unless otherwise indicated.

CAPs and Narratives addressing performance deficiencies are the components of the state’s formal plan and schedule for improving performance. To that end, a thorough analysis to identify the cause of performance shortfalls should be performed before the development of the state’s plan. The formats for CAPs and Narratives are in the SQSP Handbook.

Multi-year CAPs continue to be an option for states so that efforts which must extend beyond a FY due to their size, scope, or complexity, can be realistically portrayed. Out-year portions of such multi-year plans do not need to provide quarterly targets or milestones (as required for the SQSP year) but should provide enough information to explain anticipated progress and results.

### "At-Risk" Process

ETA’s goal is to ensure that states are implementing “methods of administration . . . reasonably calculated to ensure full payment of unemployment compensation when due,” in accordance with section 303(a)(1), SSA. To that end, ETA has identified persistently low performing states as "At-Risk" requiring high emphasis for technical assistance and monitoring. This collaborative process is expected to identify impediments to achieving performance standards; action steps designed to improve performance; and technical assistance strategies. The action strategies and technical assistance activities will become part of the state’s SQSP CAP for those measures that have caused the state to be considered “At-Risk.”

States selected because of consistently significant low performance for the first payment and appeals timeliness measures will be notified by ETA.

### SQSP Assurances

By signing the SQSP Signature Page, a state certifies that it will comply with the assurance listed in ET Handbook No. 336, 18<sup>th</sup> Edition, Change 2 (OMB No. 1205-0132), and that the state will institute plans or measures to comply with the requirements.

States will continue to provide information for Assurances H, “Assurance of Contingency Planning” and J, “Assurance of Automated Information Systems Security.” In the State Plan Narrative Outline, Section H, “Assurances,” states are expected to provide the dates that their Information Technology (IT) Contingency Plan, System Security Plan, and Risk Assessment were implemented, tested, and reviewed/updated.

States are expected to:

- Review and/or update, and test the IT Contingency Plan annually;
- Review and/or update the System Security Plan annually; and

- Conduct a Risk Assessment once every three (3) years.

If a state does not have IT Contingency Plan, System Security Plan, and Risk Assessment procedures in place or if these documents are incomplete, then the state is expected to address the actions it plans to take in the SQSP Narrative. These plans and procedures must meet the minimum controls listed in the Chapter I, Section VII-H and Section VII-J of the ET Handbook No. 336, 18<sup>th</sup> Edition, Change 2.

**7. SQSP Program Performance and Criteria.** CAPs are expected for:

- Performance below the acceptable levels of performance (ALPs) for Core Measures;
- Performance below the criteria for the Secretary's Standards established in regulation at 20 CFR Parts 640 and 650;
- The Detection of Overpayments Measure is the percentage of detectable/recoverable overpayments established for recovery. States reporting an overpayment detection rate below 50 percent are expected to address the deficiency in a CAP. Also, because states generally cannot cost-effectively detect and establish more than 80-90 percent of estimated overpayments, an upper limit of 95 percent has been established for monitoring purposes. States reporting ratios over 95 percent are expected to explain in the Narrative section the reasons for the higher-than-expected ratios. If an overpayment rate above 95 percent is the result of improper administration of BAM or BPC activities or misreporting of data on the ETA 227 (Overpayment Detection and Recovery Activities) report, the state is expected to submit a CAP (for BAM/Overpayment Detection or BPC/Overpayment Detection). The CAP should be designed to produce valid data for the Overpayment Detection Measure. The performance period for the BPC component is the three-year period ending March 31, 2012; the performance period for the BAM component is the three-year period ending September 30, 2011; and
- State BAM operations that, based on the BAM Administrative Determination, are not compliant with the NDNH matching requirements in ET Handbook No. 395, 5th Edition, Chapter VI, UIPL 3-07 and UIPL 3-07, Change 1, effective for BAM paid claims sample cases beginning with batch 200801.

States are expected to address all other performance deficiencies in the SQSP Narrative. These include:

- Failure to conduct required program reviews;
- Deficiencies identified during required program reviews;
- Failure to meet reporting requirements; and
- Invalid recording of the Issue Detection Date (IDD) and Determination Date (DD). The validity of the UI Performs nonmonetary determination timeliness measure depends on

the accuracy of the state's IDD and DD data. IDD and DD data are considered accurate if dates were correct in at least 95 percent of the nonmonetary determinations evaluated in the quarterly quality samples (obtained from the ETA 9056 report). Since the accuracy of IDD and DD data is based on sample results, sampling variation will be taken into account in setting the percentage below which a state's data will be considered inaccurate. States with invalid IDD or DD data are expected to address the steps they will take to record the IDD and DD correctly.

Attachment A lists the performance criteria for the Core Measures, Secretary's Standards and other program requirements where CAPs and/or Narratives may be required if annual performance is not acceptable. Attachment B lists the final state-specific ALPs for the UI Reemployment measure.

## **8. Additional SQSP Program Performance and Criteria.**

### *UI Program Integrity*

IPERA requires agencies to ensure that their managers and accountable officers (including the agency head), programs, and, where applicable, states and localities, are held accountable for reducing improper payments. For FY 2013, State Workforce Agencies are once again required to report their planned activities to prevent, detect, reduce, and recover improper UI payments as part of their SQSP submission. The UI Program Integrity Action Plan and instructions are included in Attachment C.

### *Tax Performance System*

To ensure that UI tax operations are also in compliance with Federal reporting and oversight requirements, failure to conduct one or more Tax Performance System (TPS) sample reviews will be subject to a CAP. Additionally, a tax function that is not sampled will be included in the number of total failing functions as measured by Tax Quality Part A (no more than 3 tax functions may fail TPS review), and Part B (a tax function cannot fail for three consecutive years). Exceptions include universes that are too small to support a sample ("S"), an Experience Rate sample that was not scheduled for review during the performance year ("E"), or the granting of a temporary waiver by the regional office (RO) ("W"). Program Review Findings Charts should be noted accordingly.

### *Data Validation (DV)*

The deadline for submitting DV results is June 11, 2012. DV items that failed to pass validation or that were not submitted are expected to be addressed in the state's FY 2013 SQSP. Non-submitted items include failures to certify that Module 3 of the DV Benefits and Tax Handbooks are up-to-date during the April 1 – June 11 certification window.

- If a state had DV items due for validation year (VY) 2012 and submitted all the items, but did not pass all items, it may address those that did not pass in the SQSP Narrative,

explaining the cause of the failure and the actions the state will take to correct the failure during FY 2013.

- Any DV items due for VY 2012, but not submitted by the June 11, 2012, deadline, must be addressed in a CAP for FY 2013.
- If a state has a combination of non-submitted and submitted-but-failing items in VY 2012, the state must do a DV CAP encompassing both the non-submitted and the submitted-but-failing items. In this case, the submitted-but-failing items may not be addressed in the Narrative.

ROs will verify that states are properly implementing the DV program by assessing the accuracy of states' DV results during a DV monitoring activity. States will be monitored on a three-year cycle. After a state participates in the monitoring activity, the items that passed DV, but failed as a result of the monitoring activity will be addressed in the SQSP process according to the following schedule:

- DV items due to be monitored by June 2012, will not be included in the FY 2013 SQSP.
- DV items due to be monitored by June 2013, will be included in the FY 2014 SQSP.
- DV items due to be monitored by June 2012, will also be included in the FY 2014 SQSP.
- DV items due to be monitored by June 2014, will be included in the FY 2015 SQSP.

Based on the plan described, the DV Monitoring schedule and the SQSP schedule should align beginning with the FY 2015 SQSP.

#### Effective Audit Measure

The Effective Audit Measure, as noted last year in UIPL No. 21-11, is a new UI Performs Core Measure. It is a blended measure of the following four factors: 1) *Percent of Contributory Employers Audited Annually*, 2) *Percent of Total Wage Change From Audit*, 3) *Percent of Total Wages Audited*, and, 4) *Average Number of Misclassifications Detected Per Audit*. Each of the four factors has a minimum standard score that states must attain to pass the Effective Audit Measure as well as an overall combined score that must be met. The measure also requires states to direct additional emphasis to the factor(s) that they deem important to their state. An additional two points must be earned among any of the four factors to attain the overall passing score of at least 7.0. Beginning with the FY 2015 SQSP, states that do not meet this measure will be expected to complete a CAP based calendar year (CY) 2013 data.

A CAP is not expected with the FY 2013 SQSP submission; however, if a state that did not attain a passing score for the Effective Audit Measure for the CY 2011 computed measure period, it is expected to describe its plan to attain a passing score in the SQSP Narrative. The state should address the specific factor(s) that are the cause of the failure, and describe the strategies that will be employed to achieve a passing score by the CY 2013 computed measure period.

### UI Integrity Measure- Benefit Year Earnings (BYE)

We established the UI Integrity Measure to address the leading cause of UI improper payments – claimants who return to work, fail to report earnings, and who continue to claim and collect UI benefits. Performance will be measured by the state’s BYE overpayment rate, estimated by the BAM survey, rather than the amount overpaid to control for year-to-year changes in benefit outlays. A state will meet the ALP if: 1) its BYE overpayment rate decreases during the performance period by the percentage decrease specified for the period; or 2) its BYE overpayment rate decreases during the performance period and the rate is below the national BYE overpayment rate by the target percentage decrease. States failing to meet the ALP will be expected to develop a CAP as part of the SQSP. Performance for CY 2012 will be addressed in the FY 2014 SQSP. A CAP is not expected with the FY 2013 SQSP submission.

### Newly Proposed Measures

These proposed measures were published in the Federal Register on February 13, 2012 (77 Fed. Reg. 7604), to solicit public comments. Comments received by the March 14, 2012, deadline have been posted for public view on the Federal eRulemaking Portal: <http://www.regulations.gov>, identified by Docket ID Number EAT-2012-0001. The final definitions and performance criteria for these measures will be announced in an advisory.

- Improper Payments Measure

The Improper Payments Measure is a newly proposed UI Performs Core Measure. It would be a combined percentage of UI benefits overpaid and underpaid, estimated from the results of the BAM survey of paid UI claims in the State UI, Unemployment Compensation for Federal Employees, and Unemployment Compensation for Ex-Servicemembers programs.

Section 3(a)(3)(F) of IPERA establishes “an improper payment rate of less than 10 percent for each program and activity for which an estimate was published under section 2(c) of the Improper Payments Information Act of 2002 (IPIA).” Section 2(e) of IPERA amends Section 2 of IPIA and defines an improper payment as “any payment that should not have been made or that was made in an incorrect amount (including overpayments and underpayments).” In accordance with IPERA requirements, the Department is proposing an ALP of less than 10 percent, first applicable to CY 2012 performance.

States failing to meet the ALP in CY 2012 will be expected to address the issue in their Integrity Action Plan as part of the FY 2014 SQSP. States failing to meet the ALP in CY 2013 will be expected to develop a CAP as part of the FY 2015 SQSP.

- UI Overpayment Recovery Measure

The proposed recovery rate is “the amount of improper overpayments recovered divided by the amount of improper overpayments identified.” To establish the ALP for the proposed measure, the Department conducted an analysis of the UI recovery data and

proposed to establish recovery targets of 64 percent in FY 2012 and 72 percent in FY 2013. The Department will compute future recovery targets based on the most recent recovery and other performance data available.

The first measurement period will be January 1, 2012, to December 31, 2012. States failing to meet the ALP in CY 2012 will address the issue in their Integrity Action Plan as part of the FY 2014 SQSP. States failing to meet the ALP in CY 2013 will be expected to develop a CAP as part of the FY 2015 SQSP.

**9. Funding Period.** Appropriations language proposed by the Department provides for obligation of FY 2013 UI allocations by states through December 31, 2013, with 90 additional days to liquidate the obligations and complete the expenditure of funds. Under our proposed appropriation, states may obligate FY 2013 UI funds through September 30, 2015, if such obligations are for automation acquisitions or competitive grants awarded to states for improved operations, reemployment and eligibility assessments and improper payments, or activities to address misclassification of workers. Therefore, if Congress adopts the proposed appropriations language, the end of the FY 2013 obligation period will be December 31, 2013, for all funds except automation acquisitions, improved operations, reemployment and eligibility assessments, and improper payments or misclassification activities, which have an obligation deadline of September 30, 2015.

**10. Data Availability.** ROs will provide states with reports showing their performance against the Core Measures, Secretary's Standards and other information relevant to the SQSP (e.g., reporting deficiencies).

**11. Deadline for State SQSP Submittal.** Each RO will set a deadline for states to submit their SQSPs for FY 2013.

**12. Electronic Submission of the SQSP.** States must submit the SQSP electronically and should contact their RO SQSP Coordinator before submittal to coordinate specific details. Standard forms required as part of the budget reporting process (Chapter II of ET Handbook No. 336, 18th Edition, Change 2) are available in PDF format and may be downloaded from the Office of Management and Budget web site at:

**<http://apply07.grants.gov/apply/FormLinks?family=15>**. States may submit the SQSP signature page electronically if state law permits. States that do not submit an electronic signature page must submit the signature page via fax, scan or mail by the deadline set by the RO.

**13. Action Requested.** State Administrators are requested to:

- Make this information available to appropriate staff;
- Prepare their SQSPs in accordance with instructions in this UIPL and the planning and reporting instructions contained in ET Handbook No. 336, 18<sup>th</sup> Edition, Change 2;

- Coordinate specifics, as appropriate, with the RO for electronic submission of the plan; and
- Submit the FY 2013 SQSP by the dates specified to the appropriate RO.

**14. Inquiries.** Questions should be directed to the appropriate RO.

**15. Attachments.**

- A. Measures/Programs to be Addressed in the Fiscal Year (FY) 2013 State Quality Service Plan (SQSP)
- B. Unemployment Insurance (UI) Reemployment Final Acceptable Levels of Performance (ALPs) Results
