

Our achievements in 2020

Together with a large institutional network, we seek to raise awareness and design public policies to prevent and eradicate child labour in the agricultural sector. This year the coronavirus pandemic did not stop our activity.

We created a board to promote fundamental rights at work in the Argentine Agri-food System. Along with **FAO**, the **Ministry of Agriculture, Livestock and Fisheries**, the **National Institute of Agricultural Technology**, **SENASA** and the **Buenos Aires Central Market**.

"Hay Mañana" Campaign

We launched the campaign "Hay Mañana" ("There is a Tomorrow") to foster health, safety and decent work at the **Buenos Aires Central Market**.

Together with the **National Institute of Agricultural Technology** we continue doing collaborative research and developing training programmes on Child Labour, Health and Safety at Work, Rural Women and Rural Youth.

As part of the work we do with the **Provincial Commissions for the Elimination of Child Labour**, in Buenos Aires we are committed to develop a geolocalized system for managing and monitoring agricultural child labour.

We supported a campaign on labour rights with the **Ministry of Agricultural Development of the province of Buenos Aires**.

We designed a course addressed to State Technical Personnel along with the **National Registry of Agricultural Workers and Employers**.

We prepared financial education training programmes to strengthen family agriculture with the method of **FINANDES**.

We contributed with the Good Agricultural Practices course of the **Ministry of Agriculture, Livestock and Fisheries**.

In partnership with:

FAO • UNICEF
Ministry of Labour, Employment, and Social Security • National Commission for the Eradication of Child Labour • Ministry of Agriculture, Livestock and Fisheries
National Institute of Agricultural Technology • National Food Safety and Quality Service
Ministry of Labour of the province of Buenos Aires • Provincial Commission for the Elimination of Child Labour of Buenos Aires • Ministry of Labour, Employment and Social Security of Santa Fe • Provincial Commission for the Elimination of Child Labour of Santa Fe
Undersecretariat of Labour and Employment of the Province of Mendoza • Provincial Commission for the Elimination of Child Labour of Mendoza • Ministry of Agricultural Development of the province of Buenos Aires
Argentine Union of Rural Workers and Stevedores
National Registry of Agricultural Workers and Employers
Argentine Industrial Union • Industrial Union of Mendoza • Wineries of Argentine
Buenos Aires Central Market • Good Agricultural Practices Network

We acquired more evidence of agricultural child labour thanks to the studies conducted at national and provincial level.

ALL OVER THE COUNTRY: National study on child labour in agriculture in Argentina; effects of innovation technologies in family agriculture labour organization.

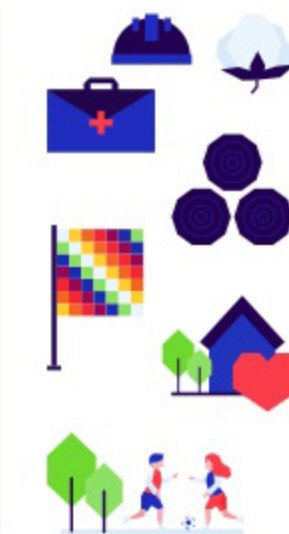

Buenos Aires: Perception survey on child labour in agriculture in Expoagro; assessment review and socio-economic characterization for the promotion of decent work in the Central Market of Buenos Aires.

MENDOZA: Child labour in the wine, garlic and tomato chains.

SANTA FE: Child care centers.

In 2021 we will face new challenges.

We will go on researching and increasing knowledge on topics such as the wine, garlic and tomato chains; impact of firewood hauling on child labour; impact of COVID-19 on children; Indigenous and Tribal Peoples; rootedness in rural areas; among others.

We will offer new **comprehensive training programs on child labour**.

Design **solutions and tools together with our strategic partners**.
