Mr. Ben P. Robertson  
Acting Administrator, Wage and Hour  
and Public Contracts Divisions  
Labor Department Building, Rm. 5146

Washington, D. C. 20210

Dear Mr. Robertson:

Reference is made to your Memorandum #79, dated December 17, 1968, inviting comments from Federal agencies on a proposed Form for semi-annual enforcement labor standards report.

It is noted that the instructions for completing the Form requests information on non-construction contracts subject to the Contract Work Hours Standards Act. ~~This will be a new reporting requirement if the Labor Department determines a need for this information.~~ Within Department of Defense the contracting offices for non-construction and construction work are generally separate and appropriate new implementing instructions would have to be issued. It is assumed that the class of non-construction contracts to be reported would be those contracts subject to the McNamara-O'Hara Service Contract Act which your agency now investigates for compliance. Some contract information on MOSCA is already being obtained by your Bureau of Labor Standards as well as your own office through the receipt of the Notice of Intention to Make a Service Contract.

DoD can arrange to furnish the proposed information with respect to construction contracts although we have no objection to the continuation of the report in the Form now provided your Department. In the event your agency modifies the Form, we plan to continue to obtain the information previously submitted to your Department as it provides useful data to us.

Sincerely yours,

Samuel Silver  
Director for Industrial Relations
