Part 3: Project Information

Project Title: Lewes Park & Ride and Maintenance Facility - Phase II

Project Number	Temporary Project Number	Date Created	Start Date	End Date
DE-2020-006-01-00	1396-2020-4-P1	2/12/2020	2/9/2018	11/30/2020

Project Description

The Lewes Park-and-Ride and Maintenance Facility - Phase II project includes construction of the Passenger Building (Visitors Center); the Maintenance Facility North Building (a drivers support facility); and the Maintenance Facility South Building (3-bay bus garage and full-service operations facility).

Project Benefits

Due to the growth of Eastern Sussex County, DART has outgrown the existing operations trailer and the limited maintenance capabilities at the Rehoboth Park & Ride. The new maintenance facility will support the necessary expanded services and operations in Eastern Sussex County, including year-round resort bus service and full-service maintenance operations.

Additional Information

None provided.

Location Description

The second phase of the Lewes Park-and-Ride and Maintenance Facility includes construction of a new maintenance facility, operations center, fueling operations, and related support operations.

Project Environmental Findings

Finding: Class II(c) - Categorical Exclusions (C-List)

Class Level Description

Class II(c) consists of projects called categorical exclusions (CEs) which are known not to have, either individually or cumulatively, a significant environmental impact on the human or natural environment and are therefore categorically excluded from the requirement to prepare an environmental assessment or an environmental impact statement. Class II(c) does not require documentation.

Categorical Exclusion Description

Type 09: Assembly or construction of facilities that is consistent with existing land use and zoning requirements (including floodplain regulations) and uses primarily land disturbed for transportation use, such as: buildings and associated structures; bus transfer stations or intermodal centers; busways and streetcar lines or other transit investments within areas of the right-of-way occupied by the physical footprint of the existing facility or otherwise maintained or used for transportation operations; and parking facilities.

Project Description

DelDOT utilizes these funds to continue to provide off-peak, late night, mid-day and reverse commute trips for entry level employees and transit dependent residents. The additional service enhances the transit system benefitting the public and choice rider as well.

Project Benefits

The program focuses on providing access to jobs and social service providers. This grant also funds reverse commute trips allowing riders transit access between Dover and Wilmington serving education sites, the Amtrak train station, and major retail and employment sites. These routes provide transportation for many low-income households and welfare recipients so that they may access employment obligations even during reduced transit service times.

Comment Requirements to Remember for ADA Compliance in Construction Projects
The ADA Standards issued by the Department of Transportation (DOT) apply to facilities used by state and local governments to provide designated public transportation services, including bus stops and stations, and rail stations. Other types of facilities covered by the ADA are subject to similar ADA Standards issued by the Department of Justice. Both the DOT and DOJ standards are based on the United States Access Board ADA Accessibility Guidelines (ADAAG).
DOT's ADA Standards (2006) are consistent with the Access Board's updated ADA (and ADAAG) guidelines but includes a few additional requirements concerning:

- Location of Accessible Routes (206.3)
- Detectable Warnings on Curb Ramps (406.8)
- Bus Boarding and Alighting Areas (810.2.2)
- Rail Station Platforms (810.5.3)

The complete ADA Standards for Transportation Facilities can be found at the US Access Board Website: (ADA Standards for Transportation Facilities)

Requirements to Remember for: New Construction of Facilities

Sixty percent of all public entrances to the facility must be accessible. If there are only two entrances, both must be accessible. (DOT ADA Standard 206.4.1.)

For rail projects, no flange way gap can be greater than 2.5" where passenger circulation paths cross tracks at grade (i.e. a street-level pedestrian crossing over streetcar tracks). (DOT ADA Standard 810.10.)

Accessible routes that coincide with, or are located in the same area, as general circulation paths and elements such as ramps, elevators, and fare vending and collection must be placed so as to minimize the distance that wheelchair users and other persons who cannot climb steps must travel in comparison to the general public. (DOT ADA Standard 206.3.)

Curb ramps must have detectable warnings. (DOT ADA Standard 406.8.)

Bus boarding and alighting areas must be in compliance with the ADA-ABA Guidelines (Section 810.2), which address surfaces (sturdy), dimensions (96" long x 60" wide); connection to sidewalks, streets and pedestrian paths; slope (not steeper than 1:48); signs; and public address systems. (DOT ADA Standard 810.2.)

Station platforms must be coordinated with the vehicle floor height. (DOT ADA Standard 810.5.3.)

?

Requirements to Remember for: Alterations or Additions to Facilities

Altered or added portions of the facility must be made accessible. (DOT ADA Standard 201 and DOT ADA Regulation 49 C.F.R. 37.43(a)(1).)

The path of travel to the altered or added portion of the facility must be made accessible, to the maximum extent feasible. (DOT ADA Regulation 49 C.F.R. 37.43(a)(2) and DOT ADA Standard 202.3.)

If the path of travel cannot be made accessible, the grantee must submit to FTA an analysis demonstrating that the cost of making the path of travel accessible is disproportionate to (i.e., > 20%) the cost of the alterations or additions to the primary function area. (DOT ADA Standard 202.4 and DOT ADA Regulation 49 C.F.R. 37.43(e)(1).)

If the path of travel cannot be made accessible, the grantee must submit to FTA an analysis demonstrating that site-specific conditions prevent you from making the path of travel accessible. Include relevant diagrams and maps. (DOT ADA Standard 202.4 and DOT ADA Regulation 49 C.F.R. 37.43(b).)

The information provided above is intended as technical assistance and applies only to the project as described. Should the project scope change or new information on the project be provided, FTA may require a re-evaluation of the project information as it relates to ADA and require additional information. This confirmation is not an express or implied promise of project compliance with the ADA.
