Subject: Request for Agenda Item at April 23 - 25, 2019 Meeting in Augusta GA

Dr. Markowitz:

Attached is a letter requesting to add an agenda item to the upcoming meeting in April.

My requested agenda item concerns the program wide use of the language and intent contained in rescinded Circular 15-06 by the US Dept. of Labor in evaluating toxic exposures. As you know while I was on the ABTSWH we refuted the use of the mid 1990s criteria in Dept. of Energy (DOE) toxic exposures as it was not based in fact, and not supported by the DOE's own inspection and audit reports.

I hope this issue can be added to the agenda for the meeting to start a thorough review of its misapplication.

Please let me know if you have any questions regarding this request.
